These statements, and all phases of Waste Management, Inc.'s operations, are subject to risks and uncertainties, any one of which could cause actual results to differ materially from those described in the forward-looking statements. Such risks and uncertainties include or relate to, among other things:

- o The Company's ability to stabilize its accounting systems and procedures and to successfully close its accounting records and report 1999 annual results in accordance with year end audit procedures;
- The Company's ability to successfully integrate the operations of acquired companies with its existing operations, including risks and uncertainties relating to its ability to achieve projected earnings estimates, achieve administrative and operating cost savings and anticipated synergies, rationalize collection routes, and generally capitalize on its asset base and strategic position through its strategy of decentralized decision making; and the risks and uncertainties regarding government-forced divestitures;
- The Company's ability to continue its expansion through the acquisition of other companies, including without limitation, risks and uncertainties concerning the availability of desirable acquisition candidates, the availability of debt and equity capital to the Company to finance acquisitions, the ability of the Company to accurately assess the prior existing liabilities and assets of acquisition candidates and the restraints imposed by federal and state statutes and agencies respecting market concentration and competitive behavior;
- o The effect of competition on the Company's ability to maintain margins on existing or acquired operations, including uncertainties relating to competition with government owned and operated landfills which enjoy certain competitive advantages from tax-exempt financing and tax revenue subsidies;
- The potential impact of environmental and other regulation on the Company's business, including risks and uncertainties concerning the ultimate cost to the Company of complying with closure requirements and post-closure liabilities associated with its landfills and other environmental liabilities associated with disposal at third party landfills and the ability to obtain and maintain permits necessary to operate its facilities, which may impact the life, operating capacity and profitability of its landfills and other facilities;
- o The impact of pending or threatened litigation and/or governmental inquiries involving the Company;

- o The effectiveness of changes in management and the ability of the Company to retain qualified individuals to serve in senior management positions; and

Additional information regarding these and/or other factors that could materially affect future results and the accuracy of the forward-looking statements contained herein may be found in Part I, Item 1 of the Company's Annual Report on Form 10-K for the year ended December 31, 1998 and in Part I, Item 2 of the Company's Quarterly Report on Form 10-Q/A for the three months ended September 30, 1999.
